Farhan Qureshi

ARCHITECT

farhan.qureshi@example.com • +91 90000 12311 • Hyderabad, India • Portfolio • LinkedIn

Profile

Registered architect with 6 years of experience in residential and mixed use projects. Delivered schemes totalling 180,000 sq ft, from concept to construction drawings, and coordinated with structural and MEP consultants. Skilled in AutoCAD, Revit, SketchUp and Lumion, and focused on buildable, well detailed design that respects budget and site.

Experience

Project Architect, Sahyadri Design Associates — Jan 2022 – Present
Hyderabad, India

- Led design and documentation for a 120,000 sq ft mixed use project through four design stages.
- Produced Revit models and drawing sets, reducing clashes found on site by 40% through early coordination.
- Coordinated with structural, MEP and landscape consultants in weekly design meetings.
- Prepared tender drawings and compared bids for two contracts worth Rs 14 crore.
- Supervised a team of three junior architects and two draftspersons.

Architect, Northwind Architects — Jul 2019 – Dec 2021
Pune, India

- Designed and detailed six independent houses between 3,000 and 6,000 sq ft.
- Made site visits every two weeks to check quality and approve material samples.
- Prepared presentations and 3D visuals that helped win two new clients.
