PROFILE

Frontend developer with 2 years of experience building responsive interfaces in React and TypeScript. Improved Lighthouse performance scores from 54 to 91 on a retail site and shipped accessible components used across four products. Care about clean markup, fast load times and working closely with designers.

EXPERIENCE

Frontend Developer, Brightlane Retail Technologies — Jun 2024 – Present
Pune, India

- Built 30+ reusable React components in a shared library, adopted by four product teams.
- Raised Lighthouse performance from 54 to 91 by lazy loading images and splitting bundles.
- Fixed accessibility issues flagged in an audit, bringing key pages to WCAG 2.1 AA.
- Worked with two designers to turn Figma files into pixel accurate, responsive pages.

Frontend Intern, Orchid Digital Studio — Dec 2023 – May 2024
Mumbai, India

- Built landing pages in HTML, CSS and JavaScript that loaded in under two seconds on mobile.
- Wrote unit tests with Jest for form validation, catching 12 bugs before release.

PROJECTS

Weather dashboard, React, TypeScript, Chart.js
github.com/meerakulkarni-example/weather

- Created a responsive dashboard that shows 7 day forecasts from a public API with offline caching.
