Nisha Gurung

Medical Lab Technician

nisha.gurung@example.com • +91 90000 12309 • Siliguri, India • LinkedIn

PROFESSIONAL SUMMARY

Medical lab technician with DMLT and B.Sc MLT and 3 years of experience in a NABL accredited diagnostic laboratory. Skilled in haematology, biochemistry and sample collection, with careful quality control and accurate reporting. Handles 150 to 200 samples a day and follows biosafety rules and documentation closely, to give doctors results they can trust.

WORK EXPERIENCE

Medical Lab Technician, Sahyadri Diagnostics and Pathology Lab — Jan 2023 – Present
Siliguri, India

- Process 150 to 200 blood, urine and serum samples a day on haematology and biochemistry analysers.
- Run internal quality control every shift and act on Westgard rule violations, keeping repeat testing below 2%.
- Maintain sample traceability and turnaround, delivering routine reports within 4 hours for 95% of samples.
- Calibrate and clean analysers per the schedule and log maintenance to support NABL audits.

Lab Trainee and Phlebotomist, Himalayan Community Hospital — Jul 2021 – Dec 2022
Siliguri, India

- Collected venous blood from 40+ patients a day with a low rate of recollection, including children and older patients.
- Labelled and stored samples correctly and supported the hospital lab during dengue season peaks.
